### **Investment Information**

GPEB have provided your Employer with [Your Generic Fund Guide](#)

This guide gives you an overview of the standard investment options available to you and should therefore be the first section to view when considering fund choice. This information should be read in conjunction with the Key Features Document and Fund information provided by Legal & General.

The ECB GSIPP offers in excess of 100 investment funds to choose from. These can be summarised in the following categories:

- ECB Default Lifestyle Profile - made up of Legal & General funds and helpful for most members who do not take personal interest in or have detailed knowledge of investments. This has a low overall charge
- Legal & General internal funds - these all generally have a low overall charge
- External funds - these are funds run by other managers. These offer additional choice and alternatives to Legal & General's funds. The External funds tend to have a higher overall charge
- Self-Investment - in addition to the above, the ECB GSIPP allows you to invest in a range of other areas, including private shares. Legal & General impose separate charges for this facility detailed on this microsite in the ECB GSIPP Fees and Charges document. This facility should only be used by those with larger pension pots who are looking for additional diversification of asset class and who have a good understanding of the risks involved.
